

THE D'LIGHT HOUSE FAMILY CENTER, INC.

is a non-profit 501c3 organization on a mission to strengthen families and empower youth. Together, we are on a mission to provide a network of support for youth and adults to grow in love for God, themselves and others.

For over five years, D'Light House Family Center has provided meaningful and memorable experiences for youth and families. We serve an estimated 200 youth and families through our programs and events each year.

Our youth programs connect students with caring adults to create hope for the future. In 4 years, the Girl Talks for Teens expanded from 7 young ladies attending a workshop to 75 young ladies and women participating in a full day of empowerment called *Love Yourself Day*. The *Destined 4 Greatness Youth Empowerment Program (D4G)* develops leadership skills in middle and high school students. Thanks to our program partners, Patriot Preparatory Academy, R.E.A.C.H. Communications and Youth to Youth International, approximately 45 teens have engaged in prevention programming.

We host the *Fun Night for Teens*, which provides a behind the scenes experience at Easton during which teens explore career opportunities and entrepreneurial interests. Through our *Cuts and Conversations*, young men connect with select barbers to engage in meaningful dialogue that fosters critical thinking and personal development. We partner with cultural organizations like COSI to offer *Family Nights* for those in our network.

Because of D'Light, youth reportedly gain an increased confidence in their ability to inspire others to make positive choices through the *Created 2 Create Interactive Arts Lab*. Our Casual Conversations series for adults reportedly motivates participants to have healthy relationships and invite others to do the same. D'Light embraces the whole person; we serve the whole family.

With your help, we are able to deepen our connection with youth and families in the community. We desire to offer more individualized, family centered attention through our programs and network partners. Additional funding will help us grow our staff, solidify like-valued partnerships, and offer programs with the resources needed to enhance our inspirational influence on those we serve.
